SEMINAR

DR SARKIS
NALBANDIAN

Learn from the Expert

*Improve your clinical skills in
a one day hands-on course*

COURSE OUTLINE

We will be discussing these cases in detail in this one-day course that will help you to focus the most essential aspects of diagnosis and treatment.

Treatment can be complex, but also can be simple with minimal intervention that helps your patients maintain their dentition and extend the life of existing restoration. Its not only simple, predictable but with in the financial comfort of your patient.

The author has lectured extensively on this topic and will present cases 10 years plus.

COURSE OBJECTIVES

1. Emergency aesthetics: fractured teeth, missing teeth-how to regain patients confidence in one visit
2. Periodontally mobile teeth: how to restore function comfort in the simplest method
3. Why composites and not complex indirect restorations?
4. How to replace a missing or about to be extracted tooth immediately using fibre-bonded bridgework (FRC)?
5. Long-term provisionalisation with composite technology
6. How to bond composite to High gold Nobel alloys, non-precious metals porcelain & zirconia?
7. Step by step the procedure will be demonstrated in detail.

**Specialist Prosthodontist
& Implant Surgeon**

Founder & Course director ICDP
(Visiting professor at YSMU)

Founder & Course director ICDP (Visiting professor at YSMU) B.D.S.(Hons), Dip. Clin. Dent. (Oral Implants), Uni. Syd., M. Clin. Dent. (Prosth) King's College, Uni. London., D. Clin. Dent. (Prosth), Uni. Syd., FIADFE, FPFA, FRACDS, MRACDS(Prosth).

Dr. Sarkis Nalbandian completed his Bachelor of Dental surgery in 1983, Graduate Diploma in Clinical Dentistry (Oral Implants) in the year 2000, from the University of Sydney. He has also completed his Masters (Prosthodontics) in 2005 with Distinction from King's College, University of London, and his Doctor of Clinical Dentistry (Prosthodontics) from the University of Sydney. Member of the Academy of Australasian Prosthodontists. He is a Fellow of Australasian College of the Dental Surgeons and a member of Specialist Stream in Prosthodontics. He has researched and published articles on the patients' decision-making processes when selecting composites or porcelain veneer systems. His special interests include: non-invasive treatments of white spot lesions, the application of composites and porcelain technology for treating complex functional and aesthetic problems, along with the application of piezosurgery in implantology, accelerated orthodontics (PAOO) and bonding to zirconia.

Dr. S. Nalbandian is a founder and course director for the International College of Dental Practitioners (ICODP. COM) and has a specialist private referral practice in Sydney focusing on Aesthetics, Prosthodontics, Implant surgery, TMD & Facial Pain.

Dr Nalbandian has lectured both locally and internationally on Aesthetics, Dental Implants and Complex Prosthodontics. He is a contributor and consultant to postgraduate master's degree

CREMORNE 2090

DATE AND TIME
FRIDAY 22 NOV 2024
8AM - REGISTRATION
9AM - 5.00PM

HENRY SCHEIN®

A summary of what you will gain

Presented by Dr Sarkis Nalbandian this is a comprehensive seminar covering practical aspects in improving clinician's confidence using composites in problem solving complex clinical cases. Yet with simple treatment modalities...

Modern composites have come a long way and we need to rethink our approach to everyday clinical practice.

The other important aspect is you will learn how to construct fibre-bonded bridgework (FRC) that is aesthetic and functional.

Do we always need dental implants?

CPD CREDIT HOURS

8 CPD hours. Certificates are issued at the conclusion of each seminar.

Seminar Registration Information

SEMINAR FEE

\$1200

Please note, we require full payment on application.

TO REGISTER

To register complete the attached form and return by email, alternatively you may register over the phone.

+61 455 109 340

Please ask for Klara or Jess.

Places are limited. Please register ASAP.
