

YOU ARE INVITED

DIAGNOSIS AND MANAGEMENT OF WHITE SPOT LESIONS

**ONE OF THE MOST IMPORTANT AREAS OF ROUTINE
DENTAL TREATMENT IN EVERYDAY CLINICAL PRACTICE**

Live Patient Demonstration

Learn about Icon resin infiltration: a minimally invasive cosmetic dental treatment designed to treat white spots and carious lesions, or areas where enamel has broken down.

See the specialist view on management of white spot lesions in a simple non-invasive treatment: providing predictable solutions to your patients.

Learning Outcomes

1. Diagnosis of white spot lesions are; this is critical for health reasons
2. Critical thinking in patient assessment:
 - What are the pitfalls?
 - What works and what does not?
3. When to use tooth whitening
4. When to use Micro abrasion? Is it necessary with the new ICON treatment?

9AM - 4.00PM**

A summary of what you will gain

Conducted by Dr. Sarkis Nalbandian, this all-encompassing workshop delves deep into the theoretical and pragmatic realms of icon technology. Its primary objective is to bolster the practitioner's self-assurance in employing icon to attain peak levels of aesthetics.

The practical, hands-on segment of the seminar holds utmost significance, as it imparts essential expertise directly applicable to your professional practice.

Upon completion, participants will be equipped with the immediate skills necessary for implementation in real-world settings.

CPD CREDIT HOURS

8 CPD hours. Certificates are issued at the conclusion of each seminar.
